SUMMARY

Automation Test Analyst with experience in Selenium automation testing for enterprise web applications. Skilled in Selenium WebDriver with Java, Cucumber BDD, TestNG, and JUnit for developing and maintaining automation frameworks. Experienced in functional, regression, smoke, API, and end-to-end testing within Agile environments. Hands-on experience in REST API testing using Postman, along with exposure to Playwright and TypeScript for modern UI automation. Familiar with Page Object Model (POM), Data-Driven Frameworks, Maven, GitLab, Jira, SDLC, and STLC methodologies.

WORK EXPERIENCE

Test Analyst

- Accenture
08/2024 – Present | Hyderabad
- Developed and maintained Selenium automation test scripts using Java for enterprise web applications.
 - Supported automation and validation activities for enterprise-level release cycles within Agile delivery environments.
 - Implemented automation frameworks using Cucumber BDD integrated with TestNG/JUnit.
 - Worked with Page Object Model (POM) and Data-Driven Framework design approaches to improve script reusability and maintainability.
 - Executed functional, regression, smoke, and end-to-end testing across multiple application modules.
 - Performed REST API testing using Postman for validating backend services and request-response workflows.
 - Collaborated with developers, QA teams, and business analysts within Agile sprint cycles using Jira.
 - Used Maven for build management and test execution automation.
 - Managed automation code repositories and version control using GitLab and Git.
 - Participated in defect identification, defect tracking, root cause analysis, and validation during release cycles.
 - Worked on web application testing and cross-browser validation activities.
 - Gained hands-on exposure to Playwright with TypeScript for modern UI automation implementation.

EDUCATION

B. Tech - Computer Science and Engineering
Vardhaman College of Engineering
CGPA: 8.21

SKILLS

Languages

Java, Typescript, Python, SQL

Automation Tools

Selenium WebDriver, Playwright, Postman

Frameworks

Cucumber BDD, TestNG, JUnit, Spring

Testing

Functional Testing, Regression Testing, Smoke Testing, API Testing, End-to-End Testing

Framework Design

Page Object Model (POM), Data-Driven Framework

Build & Collaboration Tools

Maven, GitLab, Jira, Git

Database

MySQL

Methodologies

Agile, SDLC, STLC

CERTIFICATIONS

- Certified ServiceNow System Administrator (CSA)
- Front-End Web Development - LetsGrowMore
- Data Analytics - IBM SkillsBuild CSRBOX

PROJECTS

Integrated Colorization and Styling Web App

- Tech Stack: Python, OpenCV, Streamlit
- Developed an AI-assisted image processing application for colorizing and enhancing black-and-white images.
 - Implemented image enhancement and restoration functionalities using OpenCV and Streamlit.

Spam Filtration Technique Using RNN

- Tech Stack: Python, RNN, NLP
- Developed a spam email classification system using Recurrent Neural Networks (RNN).
 - Implemented NLP techniques for text preprocessing and spam detection.
